

Sponsored by California Department of Water Resources & Water Education Foundation

Huntington Room, Beckman Center, UC Irvine 100 Academy Way, Irvine

8:30 a.m.	Check-in / Refreshments
9:00 a.m.	Improving Drought Preparedness – Better Sub-seasonal to Seasonal (S2S) Precipitation Forecasts Jeanine Jones, California Department of Water Resources
9:30 a.m.	National Weather Service Weather Forecasting, Short-term & S2S Alex Tardy, National Weather Service San Diego
10:00 a.m.	Climate Change Implications for S2S Forecasting Mike Anderson, California Department of Water Resources
10:30 a.m.	Break / Refreshments
10:45 a.m.	Overview of DWR Predictability & Experimental Forecasting Work for California & the Upper Colorado River Basin Jeanine Jones, California Department of Water Resources
11:15 a.m.	Understanding Relative Skill of Experimental S2S Forecasts Mike DeFlorio, UC San Diego, Scripps Institution of Oceanography
11:45 a.m.	Lunch
12:45 p.m.	Two-stage Seasonal Forecasts Including Snowpack Xubin Zeng, University of Arizona
1:15 p.m.	Evolution-centric Statistical Technique for Improving Seasonal Prediction Forecasting Agniv Sengupta, UC San Diego, Scripps Institution of Oceanography
1:45 p.m.	Challenges in Predicting California Winter Precipitation Xianan Jiang, UCLA
2:15 p.m.	Adjourn
